Graduate education is important

Graduate admissions is the first step

Existing work on physics graduate admissions largely focuses on how applications evaluated and which aspects are prioritized

Posselt 2016, Potvin, Chari, and Hodapp 2017, Millet et al. 2019, Young et al. 2023

Existing work on physics graduate admissions largely focuses on how applications evaluated and which aspects are prioritized

Little work has examined how applicants select which programs to apply to

Posselt 2016, Potvin, Chari, and Hodapp 2017, Millet et al. 2019, Young et al. 2023

There are more than 250
institutions offering a
graduate degree in
physics

Applicants need to do
some filtering

Graduate applicants generally do not visit campus until after they have already applied

← Winter 2009, Marsden 2019

👤 Nicholas Young

Graduate applicants generally do not visit campus until after they have already applied

Instead, they often rely on online material and recommendations from advisors

Winter 2009, Marsden 2019

👤 Nicholas Young

Goal: characterize the type of information communicated to applicants in online material

Use GradSchoolShopper data

Use GradSchoolShopper data

- Applicants often want to know what it is like to be a student in a program
- Look at department culture statements from GradSchoolShopper to infer this.

Winter 2009

👤 Nicholas Young

Use GradSchoolShopper data

- Applicants often want to know what it is like to be a student in a program
- Look at department culture statements from GradSchoolShopper to infer this.
- Found 54 U.S. physics graduate programs with department culture listings
- Analyze with content analysis

What do departmental culture statements discuss?

What do departmental culture statements discuss?

 Opportunities (49/54)

What do departmental culture statements discuss?

 Opportunities (49/54)

 Values (48/54)

What do departmental culture statements discuss?

 Opportunities (49/54)

 Values (48/54)

 Benefits of the program location (30/54)

What do departmental culture statements discuss?

 Opportunities (49/54)

 Values (48/54)

 Benefits of the program location (30/54)

 Their reputation (16/54)

Most discussed: Research opportunities

- 43/54 listings
- Areas of research available
- Specific facilities
- Colloquia, seminars, and talks

Second: Positive atmosphere

- 37/54 listings
- Collegial
- Friendly
- Inclusive
- Frequent faculty-student interaction

Third: Departmental social events

- 31/54 listings
- Coffee hours
- BBQs, picnics, holiday parties
- Happy hours

Fourth: Student Organizations

- 24/54 listings
- Physics graduate student organization
- Women in Physics
- Outreach group

Fifth: Department size

- 20/54 listings
- Large department talked about opportunities available as a result of their size
- Smaller departments talked about personal interactions with students

Sixth: Favorable location

- 19/54 listings
- Nearby recreational opportunities
- Nearby major cities
- Local festivals/cultural attractions

Things that were largely absent

- Teaching/education

Things that were largely absent

- Teaching/education
- Cost of living/affordability

Things that were largely absent

- Teaching/education
- Cost of living/affordability
- Mental health

How does this compare to what applicants care about?

How does this compare to what applicants care about?

Stay tuned!

Takeaways

- Statements revolve around four major topics:
 - their values
 - their opportunities
 - the benefits of their location
 - their reputation

Takeaways

- Statements revolve around four major topics:
 - their values
 - their opportunities
 - the benefits of their location
 - their reputation
- Research and social opportunities are most common along with department atmosphere

Takeaways

- Statements revolve around four major topics:
 - their values
 - their opportunities
 - the benefits of their location
 - their reputation
- Research and social opportunities are most common along with department atmosphere
- Limited discussion about teaching, costs, and mental health
